Data Structures and Algorithms - Assignment 6

1. Modify the insertion sort algorithm to sort the array in descending order
2. Write a function to return level/depth of given node in a BST.
3. Implement non recursive preoder, inorder and postorder traversals.
4. Write recursive functions to add and search node into BST.

Optional

5. https://leetcode.com/problems/validate-binary-search-tree
6. https://leetcode.com/problems/binary-tree-level-order-traversal
