Data Structures and Algorithms - Assignment 4

1. https://leetcode.com/problems/reverse-linked-list/description
2. https://leetcode.com/problems/reverse-linked-list-ii/description
3. https://leetcode.com/problems/linked-list-cycle/description
4. https://leetcode.com/problems/palindrome-linked-list
5. https://leetcode.com/problems/middle-of-the-linked-list/description
6. https://leetcode.com/problems/delete-the-middle-node-of-a-linked-list/description

Optional

7. Implement stack and queue using linked list
8. Write a menu driven program to perform operations on linked list. Also provide option for undo and redo. At any moment if you do undo, last operation performed on linked list should rollback. Your application should support at least 5 undo and redo operations.
